ATTORNEY DOCKET NO. 03234.0024U1 APPLICATION NO. 10/801,348

- II. Claims 30, 31, 35, and 36, drawn to a method for producing a supported particulate catalyst, classified in class 502, subclass various.
- III. Claims 37 and 38, drawn to a catalytic fuel cell, classified in class 429, subclass 40.

Applicant provisionally elects Group I, Claims 1-29 and 32-34. Applicant requests that the restriction requirement be reconsidered because the Examiner has not shown that a serious burden would be required to examine all the claims. M.P.E.P § 803 provides:

If the search and examination of an application can be made without serious burden, the Examiner <u>must</u> examine it on the merits, even though it includes claims to distinct or independent inventions. (Emphasis added.)

Thus, for a restriction to be proper, the Examiner must satisfy the following two criteria: (1) the existence of independent and distinct inventions (35 U.S.C. § 121); and (2) that the search and examination of the entire application cannot be made without serious burden. *See* M.P.E.P § 803.

The Examiner has not shown that the second requirement has been met. Specifically, the Examiner has not shown that it would be a serious burden to search and examine all of the groups together. Consequently, reconsideration and modification or withdrawal of the restriction is requested.

Applicant awaits an action on the merits.
